August 5, 2022

Dear Judge Wiles,

Thank you for doing the right thing and granting Voyager customers access to their USD in the FBO MCB account.

As you know, you have a daunting task ahead of you – every decision you make will have everlasting repercussions for the Crypto market.

That said, please see to it that you set the right precedent – that assets on Voyager's platform are those of the customers, as we did not sign up to be unsecured creditors of a "sinking ship."

The actions of Steve Ehrlich should not come at the cost of his customers. Rather, the \$30 Million+ he made in stock sales that has recently come to light should be used towards having customers' crypto assets remain as their holdings, not that of Voyager.

I have all the faith in the world you will continue to do the right thing, as you have a list of very impressive credentials...

A graduate of Boston College, and you Georgetown, I know this case is in good hands. Please don't let Voyager customers down – make this a case the Crypto market will never forget.

Customers' monies and holdings aren't to be played with...they are meant to be treated the same as any brokerage house treats them - with respect and great care. Set the precedent – don't let this opportunity pass you by, and continue to lead by example as you make history.

Best regards,

  
Jennifer Walsh,  
A Voyager Customer

\* P.S. - Please make Voyager allow access to our US Dollars within 30 days - also, make them issue a Press Release telling us when we can make our US dollar withdrawals and the steps we have to take as customers to gain our access!
